INTRODUCTORY

The aim of this work is to give a complete and accurate index to the public and private educational system of the United States. The information has been thoroughly revised to date, and before final printing of the book, proofs submitted to the various school officials for final revision and correction.

In the main *Geographical Classification*, in addition to the public school officials, will be found a complete list of all schools and colleges, together with information as to the kind of school, class of students admitted, religious denomination, year established, and the name of the governing head of the institution. A second complete list of all institutions is given in the *Classified Directory* in which the schools are arranged alphabetically by states, classified according to the kind of school, giving a ready reference or complete list of any particular class of institution, together with the names of the executive officers. A complete *Alphabetical Index* of all schools and colleges will be found at the back of the book from which any institution may be instantly located.

The *Public School System* is fully covered by lists of the state educational officials and county superintendents of schools, the city boards of education, city superintendents, public high schools and principals, and the directors and supervisors of special subjects. A list of the more prominent *Libraries* with the name of the librarian and number of bound volumes, is included in the present volume. An *Educational Business Directory* is also given, which will be found

of much value to the school executive as a convenient and ready reference list of reliable manufacturers and dealers supplying every known need of the school and college.

It is believed the work will be found of value to every one in any way associated with educational institutions, or engaged in educational work. Acknowledgment is made to the various State and City Superintendents of public instruction, private school officials, librarians and others for their kind co-operation and assistance in furnishing data and information necessary for the completion of the volume. While no labor has been spared in the effort to have the work as accurate as possible at the time of going to press, continual changes necessarily preclude absolute accuracy.

School officials, librarians and others will confer a favor by notifying us of changes, and by calling our attention to any inaccuracies or omissions in any department of the work.

THE PUBLISHERS.

CONNECTICUT

CONNECTICUT

COUNTY SUPERINTENDENTS OF SCHOOLS

Connecticut has no county superintendents of schools, but has instead what is called the "town system" of school supervision, each city, or in some cases, where the towns are small, a group of cities, having its individual superintendent of schools

PUBLIC, PRIVATE AND ENDOWED SCHOOLS AND COLLEGES

Ansonia, New Haven Co., pop. 19,052

Sch. Com.—William H. Scully, chairman
R. L. Blume, secretary
City Superintendent—Richard T. Tobin.
Principal High School—John J. Stevens.
Supv. Music—James V. Conklin
Domestic Science—Annie E. Clark.
Commercial—Monica Bambrick
Stenography—Josephine Cribbins

Avon, Hartford Co., pop. 1,977.

Ch. Sch. Com.—Fritz Loifgren.

SCHOOL TEXT-BOOK COMMISSION

Public school text-books are required by state law to be furnished free by the several towns. There is no State Text-Book Commission and no state uniformity of text-books.

STATE TEACHERS' ASSOCIATION

E. E. RODERICK, <i>President</i> , Superintendent of Schools.....	Belfast
ADELBERT W. GORDON, <i>Secretary</i>	Augusta

COUNTY SUPERINTENDENTS OF SCHOOLS

Maine has no county superintendents of schools, but has what is known as the "Union Systems" of school supervision. The towns and cities of the state, of which there are 520, are combined into groups by the State Commissioner of Education, and the members of the school committees of the towns in these groups elect one person to serve as superintendent of schools of the group or union, devoting his whole time to that work. The only exception to this arrangement is in the case of towns or cities having more than fifty schools. These are allowed to elect a superintendent of schools to serve that town or city alone.

PUBLIC, PRIVATE AND ENDOWED SCHOOLS AND COLLEGES

Alfred, York Co., pop. 890.

SUPERINTENDENTS OF SCHOOLS

Vermont has the town system of schools. The schools of the state are chiefly under the direction of superintendents who give their full time to this work. Any town or city may elect a town superintendent or may combine with other towns in a supervisory district. The superintendents of these districts are elected by the local directors subject to approval by the State Board of Education.

EDUCATIONAL BUSINESS DIRECTORY

BUYERS' GUIDE AND TRADE INDEX

ACADEMIC COSTUMES

The mortarboard cap and loose gown adopted by the senior classes of American educational institutions has come to be known as the academic garb. See, Caps and Gowns.

Collegiate Cap & Gown Co.,
Champaign, Ill.

See announcement on page 937

Cotrell & Leonard,
Albany, N. Y.

See announcement on page 937

Cox Sons & Vining,

151 East 23rd St., New York

See announcement on page 937

Moore, E. R. Co.,

932 Dakin St., Chicago, Ill.

See announcement on page 937

ACOUSTICAL CORRECTION

Burgess Laboratories, Inc., C. F.,
205 W. Wacker Drive, Chicago

ADDING AND CALCULATING MACHINES

These machines may be divided into three general classes, (a) Listing, which provide a printed record of items and totals. (b) Nonlisting, which give only totals and do not print. (c) Computing, which are nonlisting and which are used for high speed calculating.

Burroughs Adding Machine Co.,
Detroit, Mich.

Felt & Tarrant Mfg. Co.,

1718 N. Paulina St., Chicago, Ill.

Pruitt Co.,

117 N. Wacker Drive, Chicago, Ill.

See announcement on page 955

Sundstrand Adding Machine Co.,
Rockford, Ill.

ADDRESSING MACHINES

These machines are manufactured in two general types, (a) Those making impressions by means of fibre or tissue stencils, (b) Those printing from type, including the machines using metal plates on which the characters are embossed. Either can be had in hand operated, or motor driven. Their special usefulness to schools arises with permanent mailing lists, such as the alumni, catalogue mailings, form letters and the like. The addresses may be imprinted on letters, envelopes, catalogue or magazine wrappers.

Addressograph Co.,

901 W. Van Buren St., Chicago

Elliott Addressing Machine Co.,
Cambridge, Mass.

Pruitt Co.,

117 N. Wacker Drive, Chicago, Ill.

See announcement on page 955

Rapid Addressing Machine Co.,
615 S. State St., Chicago

ADVERTISING AGENCIES

Some agencies render a special service to educational institutions, and maintain departments in charge of specialists who devote their entire time to the placing of advertising for schools, colleges, and summer camps.

Ayer & Son, N. W.,

300 Chestnut St., Philadelphia, Pa.

Frank & Co., Albert

26 Beaver St., New York

Proctor & Collier Co.,

528 Walnut St., Cincinnati, Ohio

AGRICULTURAL APPARATUS

Courses in agriculture are being given in many secondary schools, as well as in the colleges and universities. Extension work has had much to do with creating an added interest in the scientific aspects of agriculture. The apparatus used covers work in animal husbandry, pomology, dairying, horticulture, soil analysis, etc. See, also, Laboratory, Apparatus; also, Laboratory Furniture.

Knott Apparatus Co.,
Cambridge, Mass.

Schaar & Co.,

556 W. Jackson Blvd., Chicago, Ill.

See announcement on page 939

Welch Manufacturing Co., W. M.,

1516 Orleans St., Chicago, Ill.

See announcement on page 985

AIR MOISTENERS AND HUMIDIFIERS

These devices used to increase the amount of moisture in the air vary from containers of water which evaporates into the air in the room, to elaborate mechanical plants. Air with the correct humidity for the temperature of the room is not only more comfortable for the occupants, but provides greater health protection.

Bentz Engineering Co.,

90 West St., New York

Gerdes, T. N.,

123 Liberty St., New York

Humidity Engineering Co.,

208 S. La Salle St., Chicago

Savo Manufacturing Co.,

39 S. La Salle St., Chicago

King & Campbell,

36 W. 40th St., New York City.

TRADE INDEX

ANATOMICAL MODELS

These models are used in the secondary schools in the study of physiology and elementary anatomy, as well as in the professional schools of medical sciences. They constitute models showing various parts of the body in detail, human skeletons with articulated joints, and the like.

141 Fulton St., New York City
See announcement on page 1007

ART APPRECIATION COURSES

There is an increasing call for authoritative material with which to encourage picture study and art appreciation in schools. The purpose of these courses is to make pictures interesting. Let the student know how the picture came to be painted, the story or scene it illustrates, the life of the artist, how his work and his standing are regarded by contemporary artists, and make the picture live for him as it did in the eye of the artist who created it.

- Porter-Motter Mfg. Co.,
1222 W. Madison St., Chicago.
See announcement on page 1011

ART CLAY PRODUCTS

- American Art Clay Co.,
353 W. 14th St., Indianapolis, Ind.

TRADE INDEX

ART EXHIBITS LOANED

Those desiring prints of master pieces of painting, sculpture and architecture, and wishing to conduct an educational art exhibition to procure funds with which to purchase prints for community uses will find a loaned art exhibit exactly suited to their needs.

Porter-Motter Mfg. Co.,
1222 W. Madison St., Chicago.
See announcement on page 1051

ART FIBRE MATERIAL

Materials used in industrial art courses for fibre furniture building, which include all needed supplies complete for each project, furniture frames, tray and basket bottoms, upholstering and finishing materials. See, Basketry Materials.

Grand Rapids Fibre Cord Co.,
Grand Rapids, Mich.
See announcement on page 1011

ART FURNITURE

Thayer & Chandler,
913 Van Buren St., Chicago
See announcement on page 1041

ART MATERIALS

This material comprises water colors, oils, poster paints, and crayons for art work. The colors can be bought individually, or in sets adapted to classroom work. In addition, the various accessories such as brushes, water pans, etc., are included in the classification. The firms listed below can furnish any or all of the materials needed.

Abbott Educational Company,
208 S. Wabash Ave., Chicago.
American Crayon Co.,
Sandusky, Ohio.

See announcement on page 921

ATHLETIC INSIGNIA

Members of championship athletic teams are usually presented with small gold emblems of suitable design such as footballs, baseballs, basketballs, track shoes and the like. These may be secured from stock patterns or manufactured to order.

Skillcrafters, Inc.,
1719 Ranstead St., Philadelphia, Pa.

See announcement on page 967

ATHLETIC LETTERS See, Letters, Athletic

ATHLETIC SUPPLIES

While apparatus has its place on the school playground, its educational value is not as great as that which comes from basketball, baseball, volley ball and similar vigorous games. Of great importance to the school, therefore, are game supplies in sufficient numbers such as basketballs, volleys balls, and nets, baseball, soccer-footballs, tennis balls and racquets, etc.

BALANCES

The common balance consists essentially of a beam resting at its middle point upon a fulcrum and furnished at its extremities with two scale pans; the goods to be weighed are placed in one of these, and known weights placed in the other until the beam assumes a horizontal position. In most of the delicate balances used for chemical analysis, the distance of the center of gravity from the fulcrum can be regulated within small limits. Such balances are protected from air currents, dust, etc., by being enclosed in glass cases with sliding fronts. See, Laboratory Equipment.

BAND AND ORCHESTRA INSTRUMENTS

Through a school band and orchestra the message of music and a better appreciation of its value are carried to a larger number of people in the community. In every school will be found a nucleus of interested prospective band or orchestra players.

BAROMETERS

An instrument for measuring the weight or pressure of the atmosphere, and may be used to foretell weather conditions if the peculiar circumstances of the region are known. It is also used as a hypsometer, or instrument to measure height above sea level. The barometer is also used in physical experiment and in industry to indicate the pressure of gases in terms of atmospheric pressure. See, Laboratory Equipment.

BASKETRY MATERIALS

Cane, reed, rattan, raffia, straw, sweet grass, and rush are the chief materials used in basketry work. In addition basket bottoms, and the tools needed, are handled by the various firms listed below. This type of work is being taught in kindergartens, grade and high schools, as well as in the vocational and manual training schools.

BELTS AND BELTING

Belts are usually made of leather tanned by oak bark. Raw hide is sometimes used, and is of considerable strength. Cotton belting has the advantage of being cheaper and stronger than leather. Chain belting consists of lengths of leather strung together on wire pins which are not bent as the belt passes over the pulley.

BLUEPRINT FRAMES

These frames are similar in construction to a photograph printing frame except that they are much larger. The majority of them rely on the sun's rays for printing. There are some, however, known as vacuum frames, that are adaptable to either sun rays or electricity.

Dietzgen Co., Eugene, Chicago, New York San Francisco, New Orleans.
See announcement on page 961

BLUEPRINT PAPER

This paper is a specially prepared sensitized paper. When tracings are placed in contact with it and exposed to light rays, the drawings will be reproduced on the paper in white lines with a blue background after the paper has been developed by immersing in clean water.

See announcement on page 987

BLUEPRINTING MACHINERY

There are two types of blueprinting machines, the cylindrical which are made in both continuous and non-continuous, and the horizontal which are all continuous. The cylindrical machine consists of two segments of curved plate glass. The tracing and paper is kept in contact with these plates by means of roller curtains. When printing an electric arc lamp is lowered into the cylinder. The horizontal machine is motor driven, the tracings and paper being fed in by means of belts onto the printing surface which is lighted by arc lamps. Schools offering courses in drafting, shop work, and where it is necessary to have a large number of blueprints, have a need for such machines.

BOOKPLATES

A label, impression, or inscription, showing the name or monogram of the owner of the particular book and frequently adorned with artistic embellishments, besides showing the owner's arms or heraldic device. They are generally pasted just inside the front board or cover of the book.

Handicraft Co.,
Minneapolis, Minn.

BOOKS

School boards and teachers are convinced of the advisability of providing for pupils' supplementary reading, and the number of adequate school libraries is constantly increasing. New books must be added to these libraries regularly if they are to be popular with the children. Boys and girls should be encouraged to think of books as part of the joy of life, and reading in no sense a duty.

BUILDING DIRECTORIES, CHANGEABLE

A large changeable bulletin board used in school buildings of the larger type where it is necessary or desirable to have some method of directing visitors to executive offices, classrooms, libraries, museums, or individuals.

Davenport-Taylor Manufacturing Co.,

412 Orleans St., Chicago, Ill.
Tablet and Ticket Co., The,
Chicago, New York, San Francisco.

BULLETIN BOARDS

Notices displayed on a bulletin board will often receive attention where important verbal announcements sometimes fall on inattentive ears. See, Bulletin Boards, Changeable; also, Bulletin Boards, Cork.

BULLETIN BOARDS, CHANGEABLE

These boards are being made in several different types. In one type the letters, which are die cut, can be had in various sizes and colors and these letters are held on to the board by tabs which fit into slots. Another type uses letters which are printed on individual cards and which fit into slides in the board. Their usefulness lies in the ease with which bulletins may be changed or altered at will.

Davenport-Taylor Manufacturing Co.,
412 Orleans St., Chicago, Ill.

ARTISTIC BRONZE TABLETS

The presentation of a Bronze Tablet to the school is a most impressive climax to the educational career of any graduating class.

We are leading manufacturers of Cast Bronze Work, specializing in commemorative tablets, honor rolls, inspirational class gifts, sun dials, etc. All our work is done under the supervision of skilled craftsmen.

We shall be pleased to furnish our catalogue upon request.

CARD INDEX SYSTEMS

Card indexes are used in schools for records of all kinds for the student, library, laboratory, and office. Just what system will be found preferable for each use will depend to a considerable extent on the information required and the size of the card used, as well as the amount of usage the file will receive. Where constant and frequent reference is required, a visible system may often be used. See, also, Filing Equipment.

CHRISTMAS CARDS, FRATERNITY

The interchange of fraternity Christmas greeting cards has become a popular present day custom among school and college fraternities and sororities. A large variety of appropriate crested cards are manufactured for this special purpose, and may be had for any fraternity or sorority.

Skillkratters, Inc.,
1719 Ranstead St., Philadelphia, Pa.
See announcement on page 967

CINEMATOGRAPHS

Apparatus for projecting on a screen in rapid succession a series of pictures representing successive stages of appearances involving motion, thus producing a sensation of a continuously moving picture. Machines similar in principal are known by the names of biograph, bioscope, kine-toscope, etc., and the effects they produce are called moving pictures. See Moving Picture Projecting Machines.

CIRCUMFERENTORS

A mathematical instrument used chiefly in connection with the surveying of mines. It consists of a compass, with diametrical sights, the dial of which is divided into degrees. This is attached to a stand and can be adjusted so that the angle which the line of sight makes with the magnetic north can be observed on the dial. See, Surveying Instruments.

GLASS PINS AND RINGS

This type of jewelry is usually made up in more or less standard designs which can be adapted to any school. Special designs can be had if desired. They are generally purchased by a student committee under the supervision of the principal or other school administrator.

15 Maiden Lane, New York City.

CLOCKS, ELECTRIC PROGRAM

A necessary requirement of the modern school is an automatic system providing accurate uniform time, and controlling a pre-arranged schedule or program for the ringing of class bells. The entire system is controlled by a master clock. Secondary clocks may be placed at will, and bells may be located in hallways or individual classrooms.

Standard Electric Time Co.,
Springfield, Mass.

CLUB PINS AND CHARMS

Social clubs, class and departmental societies, require appropriate pins and emblems for their organizations. These may be of special design to fit the particular activities and purposes of the club or association.

COLLEGE ANNUALS

Practically every college, as well as a large majority of the secondary and high schools, has an annual or yearbook which is published and sold by one of the classes. As the book is primarily a school souvenir, it is usually profusely illustrated and of the better class of printing and binding. The firms listed below specialize in this service to schools.

CRUCIBLES

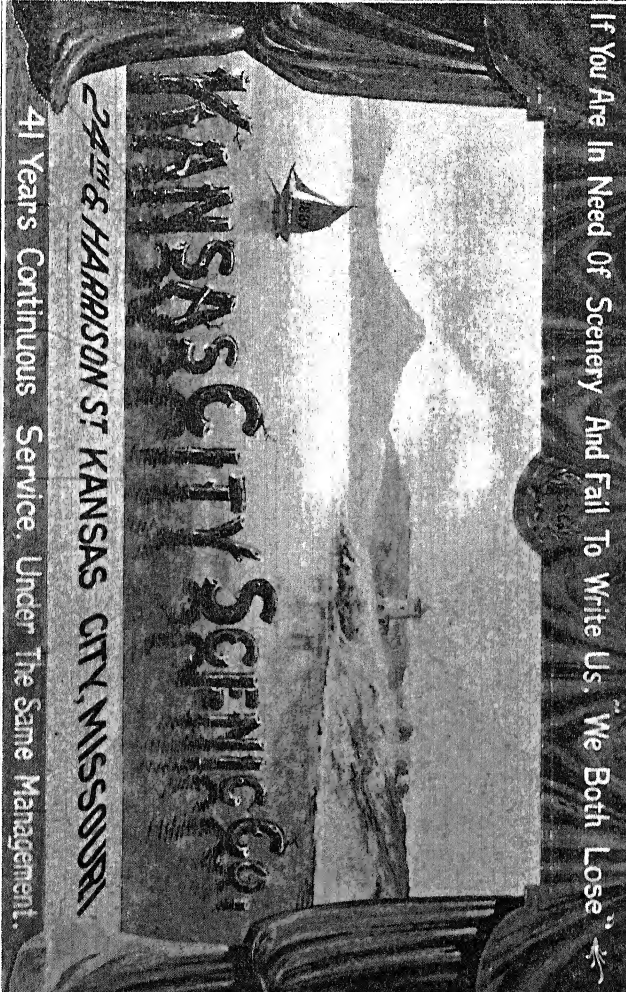

Open vessels used for melting and calcining substances which need the application of extreme heat, such as metals, ores, glass, etc. They must be made of some infusible, unbreakable substance. Those made of fire-clay and coarse sand is the commonest kind. For analytical purposes platinum and porcelain are much used. Lime or carbon crucibles will withstand the highest temperatures. See, Laboratory Equipment.

CURTAINS, STAGE

School auditoriums equipped for any form of theatricals or entertainment require a stage curtain. These curtains are made to order and can be had either in the type used by theatres, or in the form of a drape made from velour or other heavy fabric.

DENTAL EQUIPMENT

The care of the teeth of the student is a very important means of caring for the health of the child. Schools are requiring periodic examinations of the teeth of all pupils, and in many instances caring for the needed work through a staff dentist.

- Betz Co., Frank S.,**
Hammond, Ind.

DEODORIZERS

This equipment is a means of destroying bad odors in a room or building. Some of the types actually spray a deodorizing chemical into the air, while others allow the material to evaporate and mix with the air in the room. They are especially valuable in large school assembly rooms where there is danger of the air becoming stale.

DESKS

The school desk or chair plays an important part in the shaping of the physical body during the formative stage of school life. A comfortable position for both teacher and pupil must be the background for all sustained mental effort. See, Desks, Pupils; also, Desks, Movable Chair; also, Desks, Teachers.

Searles Electric Welding Works,
185J W. Fulton St., Chicago, Ill.

See announcement on page 1017

DESKS, PUPILS

School seats and desks for the pupil should be constructed in such manner as will be most conducive to the comfort and health of the occupant, permitting of an easy and natural writing or study position for the child. In addition they should be both durable and sanitary. Various types and styles are offered by the different manufacturers. See, also, Desks, Movable Chair.

DICTIONARY STANDS

A suitable dictionary stand will aid in keeping the book clean and sanitary, will eliminate any possible chance of misplacing it, and by making the dictionary conveniently available at all times thereby add to the efficiency of the classroom. Types are manufactured with adjustable and portable features which give protection and added life to the dictionary.

DISINFECTANTS

Agents used to neutralize the action of disease germs with the object of preventing the spread of infectious diseases. The use of disinfectants is highly essential in the cleaning of the schoolroom, the toilets and the washrooms. In addition to being a disinfectant, the material used should be a germicide as well.

DOMESTIC SCIENCE EQUIPMENT

The primary requirement for the teaching of school domestic science consists of a special table manufactured for the purpose. These tables provide the necessary storage space in the way of cabinets and drawers, and also provide ample working space for the student. Some types are equipped with a gas plate attached to the table, and also with a swinging stool seat attached.

DRAWING BOARDS AND TABLES

Drawing boards should be so constructed as to eliminate any possibility of warping out of square. Some boards are unmounted which may be used any place, while others are mounted in some manner. The mounted boards may be arranged so as to be folding or stationary. The stationary boards are made with iron or wood pedestals, and in some cases are provided with drawer space to take care of instruments, paper, and other materials.

DRINKING CUPS, SANITARY

The day of the common drinking cup is gone with many other unhygienic practices of yesterday. Schools are providing paper cups for the students. Dispensing machines which allow only one cup to come out at a time, are used. They are also being used in the dining halls and school cafeterias for serving beverages.

Dewar Drinking Cups

Individual Drinking Cup Co.
220 W. 19th St., New York
Sanitary Drinking Cup Co.,
47 W. 34th St., New York City.

DRINKING FOUNTAINS, SANITARY

These fountains are of the bubbling type, and are manufactured in pedestal and wall design. Where the water does not need to be purified they are attached direct to the water supply pipes. In case filtration is needed, the filter is attached to the supply pipes and the fountain operated from the filter. Sanitary drinking fountains are being installed in modern school buildings, on the playground and the athletic field, as they provide pure, fresh, clean water at all times, and in addition prevent the spread of contagion arising from germ-laden mouths.

DUPLICATING DEVICES

There are three general classes of these machines, (a) Those making impressions from type through an inked ribbon, (b) Those making impressions by means of a stencil, (c) Those using gelatin or the offset process. These machines may all be had in the hand operated type which are suitable where a large number of copies are not needed. The type and stencil machines are also manufactured motor driven.

Von Duprin

Self-Releasing Fire Exit Latches

VON DUPRIN Self-Releasing Fire Exit Latches are so simple in design, so sturdily built, so dependable in operation that they have become standard equipment on the school house doors of most of the larger American cities and many of the smaller ones.

Their high quality and reliability gives them such freedom from trouble and from servicing expense that their cost per year is surprisingly low.

Our Engineering Department will gladly send literature or special information to school men and architects.

VONNEGUT HARDWARE CO.

FENCES, SCHOOL

In addition to added property protection and ornamentation, fencing the school yard and playground will be found a wise precaution for safeguarding school children. A substantial fence and gates keep the children within bounds, bar intruders at all times, control admission, and lessen the burden of supervision. Special fences are likewise essential for the tennis court, campus, and athletic field.

LATHES

Lathes for school shops are of two types; those for metal working and those used in the woodworking courses. The metal-working lathes used by schools include the speed lathe, the engine lathe, and the turret lathe. The engine lathe is probably the most used since all work such as turning and screw cutting is done on it. The turret lathe which is used for multiple operation work will be found only in schools teaching advanced machine shop courses. The speed lathe is used almost exclusively for small operations such as polishing, etc.

MAPS

Maps are being used as a teaching aid for many subjects; geography, history, literature, and commerce courses may be greatly benefited by the aid of maps. School maps should be well mounted to stand usage, and the points covered should be clear and distinct that they may be easily found by the students.

Magazine Subscriptions

Librarians of college, public school, private school and public libraries were among those who awarded \$900,000 worth of magazine subscriptions to us during 1928. Included in this vast number were subscriptions to all domestic and foreign magazines. Let us estimate the cost of your subscriptions and explain our additional educational services. No obligation.

METRONOMES

Used by music students for indicating and marking exact time. The device consists of a pendulum driven by a spring and wheel which ticks the oscillations. The period of the pendulum's vibration can be varied to any required time by the shifting of a movable weight, a graduated scale showing the number of oscillations per minute. See, Music and Music Supplies.

MICROMETERS

great variety of forms, but in nearly all types the measurement is made by turning a very fine screw, which gives motion to a scale, lens, or ruled glass plate. See, Surveying Instruments.

MICROSCOPES

Microscopes for school work have considerable variance in quality and precision depending entirely upon the work for which they are to be used. They can be secured having a magnifying power from thirty or less diameters up to a thousand diameters. In the simple microscope a single convex lens, between the eye and the object, forms an enlarged image. In the compound microscope an object glass or objective, near the object, forms a real image, which is viewed by the observer through a magnifying eyepiece. Either objective or eyepiece, or both, may be composed of more than one lens.

MOTION PICTURE PROJECTING MACHINES

Motion pictures are being used in schools the country over to illustrate lessons in natural history, geography, literature, and science. Classroom moving pictures are not intended to supplant textbooks, but to supplement them, and visual education material is now considered a part of the equipment of the up-to-date school.

FREE to YOU!

Advice and Aid from Visual Education Authorities on Motion Pictures in the Schools

The Motion Picture in the school is a comparatively new thing. Before you decide to invest in motion picture equipment a dozen questions arise in your mind:

What definite good will motion pictures do your school? What has been the experience of other schools with motion pictures? What is the best projector for school use? How much does it cost? Where can you get films for your particular purpose?

Write today for free pamphlets on movies in the school, answering these and many other important questions. Gives successful educational and extra-curricular programs and facts about the new Acme Motion Picture Projector.

AN ARGUMENT and A GIFT

DISCUSS THIS WITH YOUR SUPERVISOR
Music That's Gambleized Doesn't Wear Out!

Have you an Excellent Music Library—

or a—Paper Heap?

Does your music last only a Few Months—

or for—Years and Years?

Supervisors using Gambleized Music are delighted with it. Their libraries need NO REPLACEMENTS and FEWER ADDITIONS. Students will not lose parts, tear or wear out any publication so "hinged" or bound.—Is this not CONVENIENCE and ECONOMY?

WE OFFER A SUPERIOR SERVICE—SUPPLY ALL PUBLICATIONS!

If your Supervisor does not have a "MUSIC SUPERVISOR'S REFERENCE RECORD", we will send one "with our compliments" upon receipt of name, address, and title or position. This book is greatly appreciated and is Gambleized!

"Thank you very much for the Gambleized 'Reference Record'."

"Such a practical, up-to-the-minute handbook, is a demonstration more convincing than miles of conventional advertising."

SELKIRK BURGESS, Dir. Mus.,
Grove City Public Schools,
Grove City, Pa.

"A line to congratulate you on the excellent 'Record' recently issued. Incidentally, it is a clever and constant reminder of how convenient and permanent Gamble material is."

FRANK A. BEACH, Dean

PARTITIONS, ROLLING AND SLIDING

Partitions facilitate the division of a large room into two or more compartments, thereby eliminating the distraction caused by several groups meeting in different corners of the same room. The rolling partition consists of small segments of wood or steel; when closed, it rolls up and is concealed in the wall or ceiling, as is also the sliding partition.

PIANOS

Pianos are a necessary part of all school equipment, every school building being provided with one or more instruments. Schools having an auditorium should provide a grand piano. In schools where piano lessons are given, each practice room must have an instrument. In the grade schools a special small sized piano which can be moved from room to room is often used. This piano is also low enough that the teacher can see over the top of it and direct the singing of the class while playing.

PRINTING OUTFITS—SCHOOL

The teaching of printing in schools as part of their vocational work has met with much favor. In addition to its vocational value, printing teaches the use of punctuation marks, the making of proper margins, the use of good English, correct spelling, capitalization, and indentation in an accurate manner. School printing outfits are designed for the smallest schools to largest universities.

PROJECTION LANTERNS

Apparatus for projecting upon a white screen enlarged representations of diagrams, pictures, etc., drawn or photographed on glass slides. They are a modified stereopticon in which an apparatus is introduced in front of the condensing lenses and a powerful arc lamp used. To project microscopic objects, a microscope objective is placed in the axis of the rays of the condensing lenses and the image of the object is focused directly on the screen. To project spectra, a dispersing prism is placed in front of the object lens. See also, Stereopticons; also, Motion Picture Machines.

SCALES, SCHOOL

The weighing and measuring of school children has become an established practice in most cities with the unqualified support of child health authorities. A school scale should be provided which will weigh and measure the child efficiently and quickly.

Continental Scale Works

2124 W. 21st St., Chicago, Ill.

SCENERY—Scenic Artists

Dramatic productions and school theatricals require the use of scenery. It may be painted to order to fit the school stage by firms specializing in that service. From the standpoint of economy, scenery needed for new settings may be rented at a nominal rate per night of usage. See, Scenery to Rent; also, Costumers.

SCHOOL BOND ISSUES

Investors are constantly seeking school bonds. For that reason School Districts can usually obtain better terms and higher prices for their securities than any other class of corporate body. Firms specializing in the issuing and marketing of school bond issues place their information and experience at the disposal of any School Board.

SCHOOLHOUSES, PORTABLE

Portable school houses, made of either wood or sheet metal, are factory built in large quantities and carried in stock ready for immediate shipment. They are delivered in sections, plainly marked, that they may be easily erected in a few days. They can be taken down at will and moved to another location. They are used for emergency needs to solve the pressure for more space, or where economy is necessary.

SEATING EQUIPMENT

The school hours have a vital effect on the health of both pupil and teacher. Incorrect seating makes the children slump down in their chairs, causing bent backs, crowded abdomens, and stooping shoulders, while correct seating encourages correct posture and builds enduring habits of health. DO YOU KNOW?

Pitman Shorthand was invented by Isaac Pitman in 1837. The excellence of the Pitman System is indicated by the fact that today—90 years after—9 out of every 10 reporters are Pitman writers.

More than 1,400 reporters were members of the National Shorthand Reporters' Association in 1926.

Nearly 1,300 of this number write Pitman.

Less than 150 use one of 11 different systems.

The Highest and Best Paid Positions Are Awarded to Pitman Writers.

See announcement on page 1053

STATUARY

Statuary furnishes educational and illustrative material for several departments, from ancient history to art, and it serves a practical use when given to the school as a memorial from classes and organizations. Very good reproductions of well known "originals" are furnished in marble, bronze, or composition. When determining the material from which the statue shall be made, purchasers should consider the usage to which it will be put, whether it will be a feature of the exterior or interior of the school building, and whether it will be used as subject matter for art or other classes.

STEREOPTICONS

A double projection lantern, the objective tubes of which can be focused on the same part of a screen. One image after another may be brought on the screen by the alternate use of the lanterns, which gives the effect of one picture appearing to dissolve gradually into another. See, also, Projecting Lanterns.

The School Auditorium *COMES INTO ITS OWN*

THE modern school auditorium is now making a more definite contribution to the curriculum than ever before. . . . It is at once a center of wholesome entertainment and dramatic training; a source of genuine student interest and, through the motion picture, a demonstration and lecture hall. . . . The projection machine, as an educational medium, has rapidly taken its place alongside the text book. Throughout the country the thirty-one branches of the National Theatre Supply Company are constantly ready to furnish school auditoriums with—

TEACHERS' AGENCIES

The reliable teachers' agency offers a genuine service to teachers, and to school boards and school officials, by recommending suitable teachers for suitable positions. The agency collects definite and reliable information with reference to the character, training, personality, experience and professional spirit of each candidate. This information is presented in convenient form for the inspection of school officials.

Wagner $\frac{1}{4}$ H. P. Motor, 8" Sander Disc, Circular Saw, Jig Saw, 30" Lathe with 9" swing, Black & Decker $\frac{1}{4}$ " Drill, Electric Glue Pot. Accessories include 5" dia. Face Plate, $\frac{3}{4}$ " Three-jaw geared Chuck, Spur and Cup Type wood Turning Centers, Arbor and Flange, 6" Cotton Buffs, 6" Wire Brushes, 5" Emery Wheel, Adjustable Tool Rest, and Tool Supports with Bed Clamp, Two Turning Tools and Socket Wrenches.

Fully Guaranteed

IDEAL FOR SCHOOLS, CARPENTERS, PATTERN MAKERS, ETC.

Mac, THE POPULAR MECHANIC, is sturdy, dependably built, accurate, a practical outfit fully guaranteed. It provides the student with accurate machinery with which to do jig sawing, spindle-work, rip or cross cut sawing, sanding, grinding, polishing, drilling, and many more operations, in a workmanlike manner. It is suitable for making tables, benches, chairs, desks, novelty furniture, for doing repair work, building bird houses, etc. Its price enables the school to have several outfits for students use at the same cost as one of the larger factory outfits. "Mac," does the same class of work as larger outfits.

Special Price To Schools

At regular prices, Mac, THE POPULAR MECHANIC, gives maximum value. Our prices are surprisingly low. We want every Manual Training School to have one or more of these outfits and we therefore will give you a substantial discount from regular prices. Write for our special school proposition today.

VACUUM CLEANERS

These machines produce sufficient suction or vacuum to draw the dirt and dust from the floor and deposit them in a receptacle, and is decidedly superior to the method of cleaning with brooms and brushes. They are manufactured in portable semi-portable, and stationary types, each type having a distinct field of service.

VISUAL EDUCATION

Visual education has demonstrated its power in all branches of study. Pictures give in glances what volumes of words fail to convey, show economic and social life as it exists, and produce those attitudes of mind which could never be developed through words alone. See, also, Stereopticons; also, Lantern Slides; also, Films, Motion Picture.

WINDOW SHADES

In the lighting of the schoolroom, much care should be exercised in the control of daylight through the use of proper shades. Shade cloth should be used which will tone the light to give eye-comfort, and bar out injurious glare. A good shade cloth will not crack, wrinkle, or show pin holes with usage.

Your Desks— are they fit for another year?

Look at them. Are they gouged? Are they scratched? Is the varnish chipped in places? Have busy, nervous pencils left them unfit for next year's classes to work upon?

You no longer need to pay for expensive hand work in making them as good as new. No troublesome, tedious varnish removal. No costly sandpapering by hand.

Whisk away that varnish—brush away those scratches, knife cuts, gouges—as easily as brushing a blackboard—with the powerful, fast-cutting, Clarke Vacuum Portable Sander.

Hundreds of schools are using this machine—to make their desks new—to resurface 800 to 1600 square feet of floor a day—and for all types of maintenance work.

120 desks made new in a day! That is the average performance of this wonderful machine.

Weighs only 23 pounds—connects to any light socket—works everywhere. Many schools are buying it just to have this fine industrial tool for instruction of their manual

training classes.

There is still time to refinish, renew your desks this year. Get the full facts at once—and see how the Clarke can reduce your maintenance costs.

120 to 200 desk tops made new in
8 hours.

Graphing the School Report

In presenting this School Report we have followed the lead of Big Business. More and more, each year, Business is dropping statistics and using the Graph Line to drive home their story.

This report has the advantage of graphically indicating the standing of the student far more forcibly than a mere tabulation of the numerical percentages would indicate, whether the change is an advance or a decline.

Line 75 (the danger line) printed in red

Visual School Report Company, Greenfield, Indiana

Lasting MEMORIES

IT SHALL always be a glorious feeling to pick up the old annual and thumb thru its pages, recalling those happy days at school.

And with every year, that dear old Book, shall be more treasured, and more read than any other book in the Case. It can not be replaced.

It is only proper that serious thought be given to the Cover encasing that treasure. That Cover must serve its expected purpose.

It must have craftsmanship; it must have quality; and it must have richness, together with durability.

An Ars Cover; the cover of all covers, is built with that thought in mind. In after years, it shall be the same as when first bound. For it **MUST** stand up.

It is a pleasure to say that the Ars Covers encase many an annual and it is our hope that your annual will also be bound with an Ars Cover.

You will be under no obligation by asking for samples or designs for your special need. It will be our pleasure to serve you.

Just Write to
